PROFILE

I am a reliable and efficient individual with a strong work ethic and excellent organizational skills.

As an open-minded person, I am always ready to seize new opportunities. I work well both independently and collaboratively, taking my responsibilities seriously.

I thrive on structuring my work effectively and preparing diligently.

PROJECTS

Project Position (2023 - 3 months, company - Flowpoint ApS)

Made an in-depth business case with user and market research for a software application, then made a prototype and market launch plan.
Handled project management, full-stack development and documentation.
AGILE project from start to finish.

Project Position (2021 - 3 months, company - UCL)

Familiarized with ROS (Robot Operating System) and made a tool interface.

Projects:

Multiple various genre games that did not reach launch potential.
Various front-end projects (websites, blogs, content creation).
Managing and leading online communities of over 500 members.

IoT projects:

RPi (Raspberry pi) fanatic, have made various small electronics/IoT projects.
Solar powered weather station for remote locations.
FarmBot Hand Gesture Control System (computer vision + IoT).

Products:

Software application - NDA product that was continued (2023 internship).
Magnetic Shelves - university project that did not reach launch potential.
Custom Chess Set (CAD modelling) - university project.
ROS tool interface - university project.

WORK EXPERIENCE

Warehouse - Worker / Driver

Envoldsen Transport ApS

January, 2020 - January, 2023

- Time management and adherence to schedules
- Adaptability to changing work conditions

EDUCATION

BA Degree - Product Development and Integrative Technology

UCL Erhvervsakademi og Professionshøjskole

2021 - 2023

Electives: IoT Programming and Big Data, Cybersecurity and IoT, Advanced CAD modelling

Projects: Magnetic Shelves product, Custom Chess set product (CAD)

AP Degree - IT Technology

UCL Erhvervsakademi og Professionshøjskole

2019 - 2021

Electives: PCB Design, IoT, Advanced Electronics, Extended Programming, Networking

Projects: FarmBot Hand Gesture Control System

PERSONAL QUALITIES

- Strong analytical and problem-solving skills
- Ability to adapt quickly to new technologies and software
- Attention to details and security
- Self-improvement mindset
- Expert documentation skills

EXPERTISE

- Product Development and Management Knowledge
- Proficiency in Research and Analysis Methodologies
- Solid understanding of IT principles and Methodologies
- Proficient in Microsoft Excel and other Microsoft applications
- **Development Skills:** Proficient in Git (CI, CD), Agile product development (Scrum), and Waterfall development
- **Technical Integration:** Knowledge of integrating technical components and systems

HOBBIES AND EXTRA INFO

- **Entrepreneurial Mindset:** Embrace hard work, dedication, and the pursuit of long-term rewards in every aspect of life.
- **Hobbyist Programmer:** I have been programming since high school, making prototype games and websites.
- **Volleyball:** Passionate about playing volleyball, fostering teamwork and competitiveness.
- **Forest Hiking:** Enjoy exploring forests, connecting with nature, and finding serenity in the outdoors.
- B category **driver's license** (5+ years).
